-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

The active claims are 1-23.

### **Related Application**

Applicants are reminded of the continuing responsibility to update the status of related applications on page 1 of the specification throughout the course of examination of the instant application.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Details of the rejections have already been set forth in the last Office action. The details are incorporated herein by reference thereto.

Further with respect to the newly amended claims 1, 12 and 20, the transferring of data between the host and the network via a plurality of queues as recited in the claims does not require the one or more receive descriptors, receive descriptor rings and memory buffer. Scope of claims 1, 12 and 20 therefore is not clear. Further with respect to the newly inserted "wherein clauses", it is not clear what is pointing to the data stored in a memory buffer. Applicants are requested to identify the support of

receive descriptors, receive descriptor rings, the memory buffer and the element pointing to the data stored in the memory buffer in the specification by page and line number and reference characters in the drawings.

### **Response**

In the communication filed on 10/29/2007, Applicants contended that the test is whether "those skilled in the art would understand what is claimed when the claims is read in light of the specification". MPEP 2100-212 is referring to the meaning of the terms. The meaning of the terms recited in the claims can be read in light of the specification. The claims are rejected not because the meaning of the terms recited in the claims is not understood. The claims are rejected because scope of the claims is not clear. Limitations in the specification should not be read into the claims. Section 112 requires that the claims particularly point out and distinctly claim what Applicants regard as their invention. As explained in the rejection, it is not clear what is regard is Applicants' claimed invention.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 12, 13, 20, 21, 2 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Headrick (USP 5,724,358).

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 3, 14, 22 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Headrick (USP 5,724,358).

Details of the rejections have already been set forth in the last Office action. The details are incorporated herein by reference thereto.

**Response**

In the communication filed on 10/29/2008, Applicants rely on the newly inserted limitations for patentability. As explained in the Section 112 Rejection above, the amendment does not add any meaningful limitations in the claims. The added "wherein clauses" do not further limit the claims let alone patentable distinct and merely consist of non-functional descriptive material. Further, Applicants relied on the disclosure in the specification for patentability, as explained in the rejection above limitations in the specification can not be read into the claims. Otherwise, the entire specification would become Applicants' claims.

### **Allowable Subject matter**

#### **Claims 4-10, 16-19, 23**

Claims 4-10, 16-19 and 23 appear to contain allowable subject matter. However, for the reasons set forth in the Section 112 Rejection, no statement can be made as to whether they are allowable.

### **Final**

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
